### SCHETS

#### OUTLINE DIAGRAM/SIGNALEMENT GRAPHIQUE/DIAGRAMM

### Resume

1. When the foal is born, you always fill in the Stallion Service Certificate and make a copy for yourself.
2. You fill in the I&R-form and attach the stallion service certificate to the original form;
3. You make an appointment with the veterinarian for micro chipping the foal;
4. You give the I&R-form to the veterinarian; he checks it and he completes it;
5. After micro chipping you ask the veterinarian to give the I&R-form back to you; if you do not do this, he will send it to an other organization and your Welsh pony will not be registered by the WPCV;
6. You make a copy of the I&R-form for yourself and send the original form to the WPCV (\*\*);
7. You have to apply for the passport before the foal is 6 months old; the minimum age of micro chipping a foal is 6 weeks old; the foal may be weaned when he is at least 4 months old;
7. If you don't know the correct name of the markings, please have the veterinarian note this information;
8. For the costs of registration, please check our website ([www.wpcv.nl/registration](http://www.wpcv.nl/registration)).
9. When you have questions, please contact our registration (Clemens Verspeek, 0031-634737835), [wpcv@hetnet.nl](mailto:wpcv@hetnet.nl), or visit our website.

(\*\*) You have to send us the I&R form within 7 days after micro chipping; please send it by registered post. If we receive it too late, we are obliged to make a note in the passport and this gives restrictions when you want to sell the animal.
